

Subzero Summit

EMERGENCY SYMPOSIUM

Saturday,
February 3, 2024
7:45 a.m. – 5:10 p.m.

Logan Health Medical Center
Buffalo Hill Conference Center
310 Sunnyview Lane | Kalispell, MT
– FREE EVENT –

CONFERENCE DESCRIPTION:

The event is designed to enhance the knowledge of those caring for critically ill and injured patients including best practice guidelines for evaluation and management. The target audience is nurses, first responders, and other healthcare professionals in the fields of trauma, emergency, and critical care medicine.

OBJECTIVES:

- Discuss and analyze trends in military trauma care.
- Describe identification and initial treatment of stroke patients.
- Review assessment, targeted monitoring and interventions for obstetric patients experiencing an emergent event.
- Review local mass casualty incident plans and identify elements of effective triage utilizing the START algorithm.
- Review assessment, targeted monitoring and interventions for pediatric patients experiencing an emergent event.
- Describe strategies for caring for cardiac patients in both the prehospital and hospital environments.
- Reflect on the experience of being a trauma, stroke, and cardiac patient from the survivor perspective.
