

The Logan Health Cancer Support Services program provides opportunities for newly diagnosed, survivors, caregivers and family members to gain support, education and hope.

Whether you have cancer or someone close to you has cancer, it can be very helpful to talk with others in a similar situation who understand what you are going through. Social support can help improve your ability to cope, your ability to feel more in control, and help you feel a greater sense of hope.

Cancer Support Services complement traditional medical care and is offered at no cost to participants. Activities include support groups, cooking and nutrition classes, education, wig fitting, exercise opportunities, workshops, youth & family programs.

Through knowledge, encouragement, and support we are here to help you find a new normal. You are not alone. Please call to learn more or consider donating to keep these very important services going strong!
