

# Are you protected from measles?

You are protected if you have written records of any of the following:

## VACCINATED

**TWO** doses of a measles-containing vaccine

If you are:

- a school-aged child (K-12)
- college/university student
- health care worker
- international traveler

**ONE** dose of a measles-containing vaccine

If you are:

- a preschool-aged child
- an adult not in a high-risk setting

## LABORATORY EVIDENCE

A lab test confirmed either:

- you had measles in the past
- you are immune to measles

## BORN BEFORE 1957

People born before 1957 are generally considered protected.
