

MEASLES

SIGNS AND SYMPTOMS

HIGH FEVER
($\geq 101^{\circ}\text{F}$ or 38.3°C)

COUGH

RUNNY NOSE

**RED, WATERY
EYES**

**TINY WHITE
SPOTS IN MOUTH**

RASH

Measles symptoms appear **7-14 days after contact** with the virus. It is highly contagious, spreads through the air, and can **linger in the air for up to 2 hours** after the infected person has left the room.

Vaccination is the best way to protect yourself and your family. The measles, mumps and rubella (MMR) vaccine is safe and effective. Two doses of MMR are about 97% effective at preventing measles and one dose is about 93% effective.

LOGAN
HEALTH

If you suspect your child has measles,
or if you have questions, please call the
Logan Health Nurse Call Center at (406) 890-7272.
