Flathead Respite Care is a newly established 501c3 nonprofit organization in Kalispell, Montana, dedicated to providing innovative, community-based dementia respite services across Flathead County. Our respite ministry follows the national model of Respite for All and is designed to provide a place of love and community for people living with all types of memory loss, including Alzheimer's, Parkinson's, stroke, age-related and other dementias. Along with a trained group of generous, caring and capable volunteers, we experience the deep joy of creating a community where people living with memory loss are valued for who they are today.

A Safe Haven

We operate every Monday and Wednesday from 10:00 am to 2:00 pm at Bethlehem Lutheran Church where we offer a safe, nurturing environment filled with a variety of thoughtfully chosen activities including brain games, memory stimulation, socialization opportunities, gentle exercise/movement/dance activities, art, music, community service projects and a nutritious lunch.

Care for the caregivers

Many people are choosing to help their loved ones live at home for as long as possible, but caring for someone who is living with dementia can be challenging. Flathead Respite Care is designed to provide "respite", or relief, for the caregivers and afford them free time so they can run errands, take care of business, or engage in self-care.

If you would like to experience Flathead Respite Care, please contact us to schedule a free visit. Due to confidentiality and participation limitations, we are unable to accept drop-ins.
